**RE: Speaker Invitation, Future Energy Nigeria, 12- 13 November 2019, Eko Hotel, Lagos, Nigeria.**

Dear Mr Joshi

I am delighted and honoured to take this opportunity to invite you to participate as an honoured speaker at the Future Energy Nigeria conference, towards the knowledge hub programme, taking from 12-13 November 2019, Eko Hotel, in Lagos, Nigeria.

The objective of Future Energy Nigeria knowledge hub programme is to address the skills gap and to advance capacity building, which has become a requirement to propel Nigeria's power sector. This will be executed through live demo training and discussing key solutions for industrial power users. We would like a way of ensuring actual execution of recommendations from the dialogue.

Due to your wealth of experience and knowledge in operations, ATC losses and revenue collection within the power industry, we feel that you add incredible value in presenting a paper towards the proposal session: **Extending the life span of utility assets**. The session will be taking place on the 13<sup>th</sup> of November 2019.

You will of course receive a complimentary delegate pass with full access to the conference, technical workshops, exhibition and valuable networking events with industry stakeholders. To accept this invitation and be part of Future Energy Nigeria we would be appreciative if you could confirm by next week **Wednesday 09 October 2019**.

Yours sincerely,

Yolisa Nyoka
